NPTEL

PROJECTS

NEWSAPP USING MERN STACK The MERN stack is a popular choice for developing web applications because it combines the power of MongoDB, Express, React, and Node.js. This project proposes the development of a news app using the MERN stack. The app will fetch news articles by using news API and display them in a user-friendly interface.

iNoteBook Developed a MERN stack application for storing, updating, and deleting notes, incorporating robust authentication and authorization features.

Pinterest Clone A Pinterest clone has been developed using the MERN stack, featuring functionalities for uploading and downloading posts, along with robust authentication and authorization mechanisms

EXTRA-CURRICULAR ACTIVITIES

- Part of College Volleyball Team.
- Coordinator of Nature's Society.
